

NuvoProTM

Wireless In-room Bar Solution

*The industry's most cutting edge
and cost efficient wireless minibar
management system*

- ▶ *Real time minibar door status automatically reported on handheld anywhere in hotel.*
- ▶ *Minimal guest disturbance (minibar attendant only checks rooms where minibar door was opened).*
- ▶ *Data entry made through intuitive graphical user interface software (paperless operation).*
- ▶ *Integrated WIRELESS posting through MESH NETWORK to minibar PC and to guest's folio (through PMS interface).*
- ▶ *Detailed management reports configurable to user's needs.*

Smart solutions!

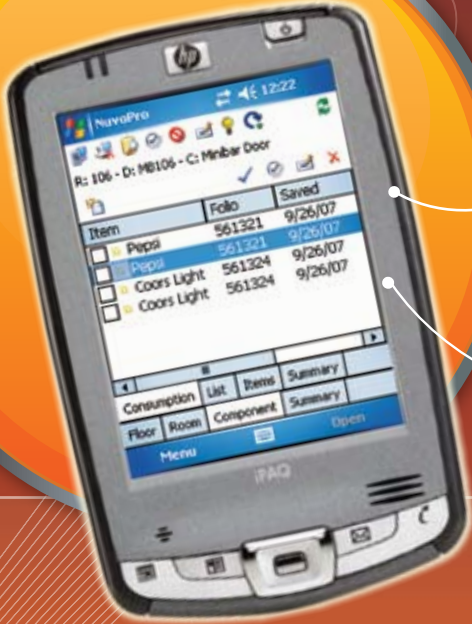

**Reliable, efficient
and affordable!**

MANUFACTURED BY

NuvoPro™
